Special Guest Speaker
Dr. Susan Hockfield
President of MIT

Founded 1926

Thursday, March 8, 2007

River Oaks Country Club
Houston, Texas

**The MIT Club of South Texas
gratefully acknowledges our Sponsors for making the
80th Anniversary Celebration possible:**

**Glen Dorflinger '46
Daniel F. Flowers '41
D. Fort Flowers, Jr. '85
Joseph '90 and Lori Flowers
MIT Resource Development**

**The MIT Club of South Texas Welcomes
MIT President Susan Hockfield**

Susan Hockfield has served as the sixteenth president of the Massachusetts Institute of Technology since December 2004. A strong advocate of the vital role that science, technology, and the research university play in the world, she believes that MIT can best advance its historic mission of teaching, research, and service by providing robust and sustained support for the ideas and energies of its faculty and students.

A noted neuroscientist whose research has focused on the development of the brain, Dr. Hockfield is the first life scientist to lead MIT and holds a faculty appointment as professor of neuroscience in the Institute's Department of Brain and Cognitive Sciences.

Under her leadership, MIT has launched a major Institute-wide initiative in energy research and education and continues to expand its activities at the intersection of the life sciences and engineering, with a particular focus on cancer research. The Institute has also embarked on a sustained effort to strengthen support for student life and learning, including undergraduate curriculum renewal, and is undertaking major campus construction and renovation projects with a combined value of approximately three-quarters of a billion dollars.

Dr. Hockfield earned her B.A. in biology from the University of Rochester and a Ph.D. from the Georgetown University School of Medicine, while carrying out her dissertation research in neuroscience at the National Institutes of Health.

Program

Cocktails

Dinner

Marilyn Taggi Cisar '76
Welcome
