Invitation to our Fall Event on Saturday, Sept 23, 2006

Hike through grass and forest to the “150 peak panorama”

Saturday, September 23, 2006

We will hike the Swiss Pre-Alps (or hills). The hike will take like 3 to 4 hours, giving us enough time for rests, grilling our sausages on the fire (if possible), and enjoying the scenery. As the tour is not too difficult or long, it is ideal to also bring your family and kids.

The suggestion is to start in Melchnau, a small village in the vicinity of Langenthal, between Bern and Olten. So it is close enough for everybody, coming from Geneva or St. Gallen. The hike is a roundtrip, giving us a splendid view on the peaks of the pre-alps (the 150 peak tour).

Tentative schedule

Around 10.00 am  Meeting in Melchnau. It is accessible by train/postauto and car
Hike 3-4 hours  Including climbing the scenic tour Hohwacht and having a picnic halfway.
Around 1600  Back in Melchnau. Final dessert, coffee or beer.

Please let me know who would like to join. Depending on people’s interests, we may adapt the program accordingly. Details to come.

Looking forward to seeing you!
